IWPR, in partnership with the National Democratic Institute, produced three monitoring reports on media coverage in Malawi ahead of presidential, parliamentary and local elections held on May 20, 2014.

The reports are based on analysis of thousands of news items taken from a wide range of print, broadcast, electronic and social media. They cover three periods – March 22 to April 2, April 2 to April 22, and finally April 23 to May 18.

The media monitoring work was supported by the United States Agency for International Development and the British Department for International Development.
